SUBJECT INDEX TO VOLUME 79

ABDOMEN, Surgical experiences with abdominal wounds in North African campaign, 286; Perforating abdominal injuries, with special reference to reduction in mortality by use of transfusions and sulfonamides, 337; Diffusion and localization of experimental infections of peritoneum, 457

Abnormalities, Renal agenesia, study of 30 cases, 175; Biological changes in squamous epithelium transplanted to pelvic connective tissue, 192; congenital, Sacrococcygeal sinus (pilonidal sinus) in direct continuity with central canal of spinal cord, 655

Adenocarcinoma, with clear cells of ovary, 539

Agenesia, Renal, study of 30 cases, 175

Alpha rays, in treatments of wounds, 412

American Board of Surgery, What kind of medical officers do Armed Services want, ed. 217

American College of Surgeons—
What kind of medical officers do Armed Services want, ed. 217
Clinical Congress, Planning for wartime, in Chicago, 222; 1944, cancelled to aid war effort, 448

Anesthesia, Relation of vitamin C to, 49; spinal, Effect of, on motility of small intestine, 553

Anesthetic drugs, topic, Local effect of, on motility of gastrointestinal tract of human and dog, 41

Ankle, Radiographic examination of, joint including arthrography, 383

Appendix, Diffusion and localization of experimental infections of peritoneum, 457

Arm, Malignant tumors arising from synovial membrane, with report of 4 cases, 125; Injuries of extremities in amphibious warfare, 573

Arteries, Use of venous tourniquets as aid to diagnosis of incipient traumatic shock, 434; coronary, Use of lycopodium as agent to create collateral circulation to myocardium from pericardium, preliminary report, 497

Arthritis, degenerative, Total and partial patellectomy, experimental study, 526

Arthrography, Radiographic examination nkle joint including, 383

BACTERIAL flora, Value of new compound used in soap to reduce, of human skin, 205

Bactericide, Canavalin, new enzymatic, agent, preliminary report, 83

Baseball finger, Observations on displaced fractures of hand, 522

Berkow's table, Estimation of areas of burns, 352

Besley, Frederic Atwood, Memoir, 445

Bile, gall bladder, hepatic, studies, Thyroid function as factor in gall-bladder disease and formation of gall stones, clinical and experimental study, 10

Bile duct, common, Reconstruction of, 57

Bladder, Presacral neurectomy for intractable vesical pain and neurogenic vesical dysfunction, 21; Some complications in surgical handling of carcinoma of left colon and rectum, 27; Rectourinary fistula, 427

Blood groups, Physician, blood transfusion, Rh factor and erythroblastosis fetalis, 490

Blood plasma, Laboratory routine for fluid, electrolyte, and protein control in surgical patients, 438

Blood pressure, Use of venous tourniquets as aid to diagnosis of incipient traumatic shock, 434

Blood transfusion, Perforating abdominal injuries, with special reference to reduction in mortality by use of transfusions and sulfonamides, 337; Hypoproteinemia in thoracic surgery, clinical study, 368; Physician, Rh factor and erythroblastosis fetalis, 490

Blood vessels, Use of radioactive sodium in studies of circulation in patient vith peripheral vascular disease, preliminary report, 142; Hyperactivity of vasoconstrictor nerves in relation to shock, experimental and clinical study, 163; thrombosis, Value of sympathectomy in treatment of Buerger's disease, 359

Bone graft, Fractures of carpal scaphoid in Canadian Army, review and commentary, 225

Brain, Helmet for protection against craniocerebral injuries, 89; Injuries of vertex of skull with special reference to paracentral lobules of, 267; concussion, Experimental structural alterations in, during and after, 561

Brain cell change, Experimental structural alterations in brain during and after concussion, 561

Breast, Classification of chronic cystic mastitis, ed. 109; Effects of orchiectomy on primary and metastatic carcinoma of, 589

Buck, Gurdon B., Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile urethra, 195

Buerger's disease, Value of sympathectomy in treatment of, 359

Burns, Estimation of areas of, 352; Therapy of, comparative experimental study including medicated pliable gelatin film, and note on effect of firm dressings on rate of healing, 469

CALCIUM changes, in acute pancreatic necrosis, 240

Canavalin, new enzymatic bactericidal agent, preliminary report, 83

Cancer, of pelvic colon, Surgery, and rectum, 92

Carcinoma, metastatic, Neck dissections for, 115; Effects of orchiectomy on primary and metastatic, of breast, 589; Primary, of extremity, 669; Ulcer, problem of stomach, ed. 673

Carpal bones, dislocation of, Perilunar, and dislocation of lunate bone, 256

Cerebrum, Helmet for protection against craniocerebral injuries, 89

Cervix uteri, See uterus, cervix

Chemotherapy, Injuries of extremities in amphibious warfare, 573

Chest, Closure of open, following Schede operation for tuberculous empyema, 148

Children, Treatment of urinary infections of childhood, ed. 557

Cholecystitis, Origin of, ed. 441

Cholesterol level, Thyroid function as factor in gall-bladder disease and formation of gall stones, clinical and experimental study, 10

Circulation time, Use of radioactive sodium in studies of circulation in patients with peripheral vascular disease, preliminary report, 142

Clostridium welchii, Pathology of experimental clostridial infections in dogs, 660

Collateral circulation, Use of lycopodium as agent to create, to myocardium from pericardium, 497

Colles, Abraham C., Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile urethra, 195

Colon, carcinoma of, Some complications in surgical handling of, of left, and rectum, 27; Surgery of pelvic, and

rectum, 92; New simplified method of defunctionalizing, 419; Reconstruction of wounds of, 544
Color matching, of skin grafts and flaps with permanent pigment injection, 624
Control, fluid, electrolyte, protein, Laboratory routine for, in surgical patients, 438
Cranium, Helmet for protection against craniocerebral injuries, 89
Current, strength duration curves, Use of discontinuity of, in muscle in diagnosis of peripheral nerve lesions, 133

DÉBRIDEMENT, Sulfonamides as adjunct to treatment of compound fractures, 323; when and how much? Comparative study of battle casualties, 478
Diagnosis, Use of discontinuity of strength duration curves in muscle in, of peripheral nerve lesions, 133; early and late, Fractures of carpal scaphoid in Canadian Army, review and commentary, 225; differential, of spinal cord and brain, Injuries of vertex of skull with special reference to paracentral lobules of brain, 267; x-ray, Acute pancreatitis with special reference to, 504
Disc, lumbar intervertebral, protrusion of, Maternal obstetrical paralysis, 374; intervertebral, Rôle of nucleus pulposus in pathogenesis of so called "recoil" injuries of spinal cord, 516
Disease, peripheral vascular, Use of radioactive sodium in studies of circulation in patients with, 142
Dressings, Therapy of burns, comparative experimental study including medicated pliable gelatin film, and note on effect of firm, on rate of healing, 469
Dysfunction, neurogenic vesical, Presacral neurectomy for intractable vesical pain and, 21

EDUCATION, medical, What kind of medical officers do the Armed Services want, ed. 217
Embolism, Deep quiet venous thrombosis in lower limb, preferred levels for interruption of veins, iliac sector or ligation, 70
Empyema, tuberculous, Closure of open chest following Schede operation for, 148
Endocrine treatment, Effects of orchiectomy on primary and metastatic carcinoma of breast, 589
Enzymes, Canavalin, new enzymatic bactericidal agent, preliminary report, 83
Epithelium, squamous, Biological changes in, transplanted to pelvic connective tissue, 192
Erythroblastosis fetalis, Physician, blood transfusion, Rh factor and, 490
Estimation of burned surface, in adults, children, 352
Extremities, Injuries of, in amphibious warfare, 573; Primary carcinoma of, 669

FASCIA, Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile urethra, 195
Fat necrosis, Calcium changes in acute pancreatic, 240
Fibula, Radiographic examination of ankle joint including arthrography, 383
Fistula, Rectourinary, 427
Foot, Malignant tumors arising from synovial membrane with report of 4 cases, 125; veins of, Use of radioactive sodium in studies of circulation in patients with peripheral vascular disease, preliminary report, 142
Formula, DuNouy, Experimental and clinical study on use of adult animal tissue extract in acceleration of wound healing, preliminary report, 103
Fractures, compound, Sulfonamides as adjunct to treatment of, 323; Observations on displaced, 522
Frontal bone, Reconstruction after radical operation for osteomyelitis of, experience in 38 cases, 397

GALL bladder, Thyroid function as factor in, disease and formation of gall stones, clinical and experimental study, 10; Reconstruction of common bile duct, 57; Origin of cholecystitis, ed. 441; Choice of incision in, surgery as factor in preventing wound disruption, evisceration, and herniation, 606
Gas gangrene, Pathology of experimental clostridial infections in dogs, 660
Gastrectomy, partial, New stitch for uses in, 537
Gastritis, corrosive, Surgical treatment of, 306
Gastrointestinal tract, motility of, Local effect of topic anesthetic drugs on, of human and dog, 41
Gelatin film (sulfagel), Therapy of burns, comparative experimental study including medicated pliable, and note on effect of firm dressings on rate of healing, 469
General Order No. 31, Organization of Red Army Medical Corps, ed. 329
Goiter, Posterior mediastinal, 314
Grafts, nerve, Experimental studies in peripheral nerve surgery, I. Effect of sulfonamide drugs upon experimental gunshot wounds involving peripheral nerves, II. Effect of sulfonamide drugs upon regeneration of peripheral nerves, 245, 250; Late condition of nerve homografts in man, 342

HAND, Malignant tumors arising from synovial membrane with report of 4 cases, 125; Perilunar dislocation of carpal bones and dislocation of lunate bone, 256; Observations on displaced fractures of, 522
Heart, Use of lycopodium as agent to create collateral circulation to myocardium from pericardium, preliminary report, 497
Heart damage, Pathology of experimental clostridial infections in dogs, 660
Helmet, for protection against craniocerebral injuries, 89
Hematocrit value, Ligation of thoracic duct and posthemorrhage plasma protein level, 37
Hemorrhage, Ligation of thoracic duct and posthemorrhage plasma protein level, 37
Hernia, Transmesenteric, 509; Combined operation for varicocele and inguinal, preliminary report, 644
Hyperactivity, sympathoadrenal, of vasoconstrictor nerves in relation to shock, experimental and clinical study, 163
Hypoproteinemia, in thoracic surgery, clinical study, 368

IMPLANT material, acrylic, bone, cartilage, tantalum, vitallium, Reconstruction after radical operation for osteomyelitis of frontal bone, experience in 38 cases, 397
Infection, Definition of objectives, and importance of controls in evaluating local use of sulfonamides in wound, 1; Origin of cholecystitis, ed. 441; of peritoneum, Diffusion and localization of experimental, 457; urinary, Treatment of, of childhood, ed. 557; clostridial, Pathology of experimental, in dogs, 660
Inflammation, Origin of cholecystitis, ed. 441
Injuries, abdominal, Perforating, with special reference to reduction in mortality by use of transfusions and sulfonamides, 337; of spinal cord, Rôle of nucleus pulposus in pathogenesis of so called "recoil," 516
Instruments and apparatus, Davis helmet, for protection against craniocerebral injuries, 89; Geiger-Mueller counter, Use of radioactive sodium in studies of circulation in patients with peripheral vascular disease, preliminary report, 142; Hook traction under zygomatic arch in cervical spine injuries, 311; New simplified method of defunctionalizing colon, 419; blood pressure cuff, Use of venous tourniquets as aid to diagnosis of incipient traumatic shock, 434; traction splint, Obser-

vations on displaced fractures of hand, 522; balloon kymograph records, Effect of spinal anesthesia on motility of small intestine, 553; Furniss clamp, Technique of aseptic or closed gastric resection using, 629
Intestines, Local effect of topic anesthetic drugs on motility of gastrointestinal tract of human and dog, 41; perforation of, Diffusion and localization of experimental infections, of peritoneum, 457; obstruction, Transmesenteric hernia, 509; Technique for aseptic intestinal anastomosis, 552; small, Effect of spinal anesthesia on motility of, 553

JEJUNUM, Technique of aseptic or closed gastric resection using Furniss clamp, 629
Joints, intervertebral, pelvic, changes in, Maternal obstetrical paralysis, 374; Observations on displaced fractures of hand, 522

KIDNEY, Renal agenesia, study of 30 cases, 175; tumors, Adenocarcinoma with clear cells (hypernephroid) of ovary, 539; Treatment of urinary infections of childhood, ed. 557
Knee, Malignant tumors arising from synovial membrane with report of 4 cases, 125; Total and partial patellectomy, experimental study, 526

LABOR, Maternal obstetrical paralysis, 374
Laboratory, technique, routine for fluid, electrolyte, and protein control in surgical patients, 438
Leg, lower, Deep quiet venous thrombosis in lower limb, preferred levels for interruption of veins, iliac sector or ligation, 70; Injuries of extremities in amphibious warfare, 573
Ligament, Mackenrodt, Exact anatomy and development of ligaments attached to cervix uteri, 390
Lip, Neck dissections for metastatic carcinoma, 115
Liver damage, Pathology of experimental clostridial infections in dogs, 660
Lunate bone, dislocation of, Perilunar dislocation of carpal bones and, 256
Lund's table and diagrams, Estimation of areas of burns, 352
Lungs, Hypoproteinemia in thoracic surgery, clinical study, 368
Lycopodium, Use of, as agent to create collateral circulation to myocardium from pericardium, preliminary report, 497
Lymph node, Primary carcinoma of extremity, 669

MASCULINIZATION, Primary masculinizing tumors of ovary, 651
Mastitis, chronic cystic, Classification of, ed. 109
Maternal care, Physician, blood transfusion, Rh factor and erythroblastosis fetalis, 490
Medical corps, Army, organization of Red, ed. 329
Medical Department, Army Service Forces, Organization of Red Army Medical Corps, ed. 329
Medical schools, What kind of medical officers do Armed Services want, ed. 217
Medicine, military and naval, What kind of medical officers do Armed Services want, ed. 217
Memoir, Frederic Atwood Besley, 445
Mesentery, Transmesenteric hernia, 509
Method, Rankin obstructive resection, Some complications in surgical handling of carcinoma of left colon and rectum, 27; Carrel of measuring wounds, Experimental and clinical study on use of adult animal tissue extract in acceleration of wound healing, preliminary report, 103; Berman, New simplified method of defunctionalizing colon, 419; New stitch for uses in partial gastrectomy, 537; Technique for aseptic intestinal anastomosis, 552; Hofmeister, Technique of aseptic or closed gastric resection using Furniss clamp, 629
Montreal General Hospital ointment, Clinical and laboratory evaluation of action of sulfonamide ointments, 326
Mortality, Surgical experiences with abdominal wounds in North African campaign, 286; statistics, Perforating abdominal injuries, with special reference to reduction in, by use of transfusions and sulfonamides, 337
Motility, intestinal, Effect of spinal anesthesia on, of small intestine, 553
Muscle, Use of discontinuity of strength duration curves in, in diagnosis of peripheral nerve lesions, 133
Myoma, uterine, Management of, study based on 1000 consecutive personal cases and illustrating technique of panhysterectomy, 182
Myocardium, Use of lycopodium as agent to create collateral circulation to, from pericardium, 497

NECK, dissection, for metastatic carcinoma, 115
Nerves, Presacral neurectomy for intractable vesical pain and neurogenic vesical dysfunction, 21; peripheral, lesions of, Use of discontinuity of strength duration curves in muscle in diagnosis of, 133; vasoconstrictor, Hyperactivity of, in relation to shock, experimental and clinical study, 163; peripheral, Experimental studies in, surgery, I. Effect of sulfonamide drugs upon experimental gunshot wounds involving, II. Effect of sulfonamide drugs upon regeneration of, 245, 250; vagus, Vagotomy in therapy of peptic ulcer, 297; homograft, Late condition of, in man, 342; sympathetic, Value of sympathectomy in treatment of Buerger's disease, 359
Nerve fibers, Experimental structural alterations in brain during and after concussion, 561
Neurectomy, Presacral, for intractable vesical pain and neurogenic vesical dysfunction, 21
Nucleus pulposus, Rôle of, in pathogenesis of so called "recoil" injuries of spinal cord, 516

OBSTETRICS, Maternal obstetrical paralysis, 374
Operation, Schede, Closure of open chest following, for tuberculous empyema, 148
Orchiectomy, Effects of, on primary and metastatic carcinoma of breast, 589
Osteomyelitis, Reconstruction after radical operation for, of frontal bone, experience in 38 cases, 397
Ovary, Adenocarcinoma with clear cells (hypernephroid) of, 539; Primary masculinizing tumors of, 651

PAIN, vesical, Presacral neurectomy for intractable, and neurogenic vesical dysfunction, 21
Pancreas, Calcium changes in acute pancreatic necrosis, 240; Acute pancreatitis with special reference to x-ray diagnosis, 504
Pancreatitis, Acute, with special reference to x-ray diagnosis, 504
Panhysterectomy, abdominal, Management of uterine myomas, study based on 1000 consecutive personal cases and illustrating technique of, 182
Paralysis, Maternal obstetrical, 374
Patellectomy, Total and partial, experimental study, 526
Patient, surgical, Laboratory routine for fluid, electrolyte, and protein control in, 438
Penicillin, Injuries of extremities in amphibious warfare, 573
Penis, Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile urethra, 195

Pericardium, Use of lycopodium as agent to create collateral circulation to myocardium from, preliminary report, 497
Peritoneum, Diffusion and localization of experimental infections of, 457
Phlebothrombosis, Deep quiet venous thrombosis in lower limb, preferred levels for interruption of veins, iliac sector or ligation, 70
Pigment injection, Color matching of skin grafts and flaps with permanent, 624
Pilonidal sinus, sacrococcygeal cyst teratoma, 482; Sacrococcygeal sinus, in direct continuity with central canal of spinal cord, 655
Plasma, ascorbic acid level of, Relation of vitamin C to anesthesia, 49
Plasma protein, level, Ligation of thoracic duct and posthemorrhage, 37; fall in, Hypoproteinemia in thoracic surgery, clinical study, 368; Laboratory routine for fluid, electrolyte, and, control in surgical patients, 438
Pregnancy, Maternal obstetrical paralysis, 374
Prostate, Transurethral resection and open prostatectomy, consideration based on 10 years of experience with transurethral resection, 449; Effects of orchiectomy on primary and metastatic carcinoma of breast, 589
Prostatectomy, open, Transurethral resection and, consideration based on 10 years of experience with transurethral resection, 449

RADIOACTIVE sodium, Use of, in studies of circulation in patients with peripheral vascular disease, preliminary report, 142
Radium therapy, Alpha rays in treatment of wounds, 412
Rectum, carcinoma of, Some complications in surgical handling of, and left colon, 27; Surgery of pelvic colon and, 92; Rectourinary fistula, 427
Resection, Transurethral, and open prostatectomy, consideration based on 10 years of experience with, 449
Rh factor, Physician, blood transfusion, and erythroblastosis fetalis, 490
Roentgenography, Radiographic examination of ankle joint including arthrography, 383
Russia, Organization of Red Army Medical Corps, ed. 329

SACROCOCCYGEAL sinus (pilonidal sinus), in direct continuity with central canal of spinal cord, 655
Sacrum, Pilonidal sinus, sacrococcygeal cyst teratoma, 482
Salivary gland, parotid, Papillary cystadenoma lymphomatosum (Warthin's tumor) of, 611
Scaphoid, carpal, Fractures of, in Canadian Army, review and commentary, 225
Scarpa, Antonio, Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile urethra, 195
Shock, Hyperactivity of vasoconstrictor nerves in relation to, experimental and clinical study, 163; traumatic, Use of venous tourniquets as aid to diagnosis of incipient, 434
Skin, human, Value of new compound used in soap to reduce bacterial flora of, 205
Skin grafts, Biological changes in squamous epithelium transplanted to pelvic connective tissue, 192; and secondary closure in war wounds, preliminary report, 584; Color matching of, and flaps with permanent pigment injection, 624
Skull, Injuries of vertex of, with special reference to paracentral lobules of brain, 267
Soap, Value of new compound used in, to reduce bacterial flora of human skin, 205
Sphincter, control, Injuries of vertex of skull with special reference to paracentral lobules of brain, 267
Spine, injuries of, Hook traction under zygomatic arch in cervical, 311
Spinal cord, Rôle of nucleus pulposus in pathogenesis of so called "recoil" injuries of, 516; Experimental structural alterations in brain during and after concussion, 561; Sacrococcygeal sinus (pilonidal sinus) in direct continuity with central canal of, 655
Stomach, Local effect of topic anesthetic drugs on motility of gastrointestinal tract of human and dog, 41; Vagotomy in therapy of peptic ulcer, 297; Surgical treatment of corrosive gastritis, 306; Acute pancreatitis with special reference to x-ray diagnosis, 504; New stitch for uses in partial gastrectomy, 537; Technique of aseptic or closed gastric resection using Furniss clamp, 629; Ulcer carcinoma problem of, ed. 673
Sulfagel, Therapy of burns, comparative experimental study including medicated pliable gelatin film, and note on effect of firm dressings on rate of healing, 469
Sulfathiazole ointment, Therapy of burns, comparative experimental study including medicated pliable gelatin film, and note on effect of firm dressings on rate of healing, 469
Sulfonamides, Definition of objectives, and importance of controls in evaluating local use of, in wounds, 1; Experimental studies in peripheral nerve surgery, I. The effect of, drugs upon experimental gunshot wounds involving peripheral nerves, II. Effect of, drugs upon regeneration of peripheral nerves, 245, 250; as adjunct to treatment of compound fractures, 323; Perforating abdominal injuries, with special reference to reduction in mortality by use of transfusions and, 337
Sulfonamide ointments, Clinical and laboratory evaluation of action of, 326
Surgery, abdominoperineal resection, Some complications in surgical handling of carcinoma of left colon and rectum, 27; Reconstruction of common bile duct, 57; radical neck dissection, Neck dissections for metastatic carcinoma, 115; plastic, Closure of open chest following Schede operation for tuberculous empyema, 148; plastic, Biological changes in squamous epithelium transplanted to pelvic connective tissue, 192; technique, Value of new compound used in soap to reduce bacterial flora of human skin, 205; peripheral nerve, Experimental studies in, I. Effect of sulfonamide drugs upon experimental gunshot wounds involving peripheral nerves, II. Effect of sulfonamide drugs upon regeneration of peripheral nerves, 245, 250; Vaginal hysterectomy, evaluation of Gellhorn-Emmert modification of Dickinson technique in 600 cases, 277; gastroenterostomy, Surgical treatment of corrosive gastritis, 306; military, Organization of Red Army Medical Corps, ed. 329; thoracic, Hypoproteinemia in, clinical study, 368; plastic, technique, Reconstruction after radical operation for osteomyelitis of frontal bone, experience in 38 cases, 397; plastic, Skin grafting and secondary closure in war wounds, preliminary report, 584; Choice of incision in gall bladder, as factor in preventing wound disruption, evisceration, and herniation, 606; plastic, Color matching of skin grafts and flaps with permanent pigment injection, 624; gastric resection, Technique of aseptic or closed gastric resection using Furniss clamp, 629
Swimming, cause of frontal bone necrosis, Reconstruction after radical operation for osteomyelitis of frontal bone, experience in 38 cases, 397
Sympathectomy, Value of, in treatment of Buerger's disease, 359
Synovial membrane, Malignant tumors arising from, with report of 4 cases, 125

TECHNIQUE, Dickinson, Gellhorn-Emmert modification of, Vaginal hysterectomy, evaluation of, in 600 cases, 277
Testicles, Effects of orchiectomy on primary and metastatic carcinoma of breast, 589; Combined operation for varicocele and inguinal hernia, preliminary report, 644
Thoracic duct, Ligation of, and posthemorrhage plasma protein level, 37
Thrombosis, Deep quiet venous, in lower limb, preferred levels for interruption of veins, iliac sector or ligation, 70
Thyroid, function as factor in gall-bladder disease and formation of gall stones, clinical and experimental study, 10; Posterior mediastinal goiter, 314
Tissue extract, adult animal, Experimental and clinical study on use of, in acceleration of wound healing, 103
Tongue, Neck dissections for metastatic carcinoma, 115
Tourniquets, venous, Use of, as aid to diagnosis of incipient traumatic shock, 434
Transplantation, Reconstruction after radical operation for osteomyelitis of frontal bone in 38 cases, 397
Tumors, malignant, arising from synovial membrane with report of 4 cases, 125; masculinizing, Adenocarcinoma with clear cells (hypernephroid) of ovary, 539; Papillary cystadenoma lymphomatosum (Warthin's), of parotid salivary gland, 611; of ovary, adrenal cell, arrhenoblastoma, Primary masculinizing, 651

ULCER, peptic, Vagotomy in therapy of, 297; varicose, Cosmetic method of operating upon varicose veins, 318; carcinoma problem of stomach, ed. 673
Urethra, Anatomical study and clinical consideration of fasciae limiting urinary extravasation from penile, 195; Transurethral resection and open prostatectomy, consideration based on 10 years of experience with transurethral resection, 449
Urine, extravasation of, Anatomical study and clinical consideration of fasciae limiting, from penile urethra, 195
Uterus, Management of uterine myomas, study based on 1000 consecutive personal cases and illustrating technique of panhysterectomy, 182; Vaginal hysterectomy, evaluation of Gellhorn-Emmert modification of Dickinson technique in 600 cases, 277; cervix, Exact anatomy and development of ligaments attached to, 390

VAGINA, Biological changes in squamous epithelium transplanted to pelvic connective tissue, 192; Vaginal hysterectomy, evaluation of Gellhorn-Emmert modification of Dickinson technique in 600 cases, 277
Vagotomy, in therapy of peptic ulcer, 297
Varicocele, Combined operation for, and inguinal hernia, preliminary report, 644
Varicose veins, Cosmetic method of operating upon, 318
Veins, deep, Deep quiet venous thrombosis in lower limb, preferred levels for interruption of, iliac sector or ligation, 70; spermatic, Combined operation for varicocele and inguinal hernia, preliminary report, 644
Vitamin C, Relation of, to anesthesia, 49

WAR, surgery, Helmet for protection against craniocerebral injuries, 89; medicine, Value of new compound used in soap to reduce bacterial flora of human skin, 205; surgery, What kind of medical officers do Armed Services want, ed. 217; surgery, Canadian Army, Fractures of carpal scaphoid in, review and commentary, 225; Experimental studies in peripheral nerve surgery, I. Effect of sulfonamide drugs upon experimental gunshot wounds involving peripheral nerves, II. Effect of sulfonamide drugs upon regeneration of peripheral nerves, 245, 250; surgery, in North African campaign, Surgical experiences with abdominal wounds in, 286; surgery, Cosmetic method of operating upon varicose veins, 318; medical corps, Organization of Red Army, ed. 329; surgery, Perforating abdominal injuries, with special reference to reduction in mortality by use of transfusions and sulfonamides, 337; surgery, Débridement—when and how much? Comparative study of battle casualties, 478; Reconstruction of wounds of colon, 544; surgery, Injuries of extremities in amphibious warfare, 573; surgery, Skin grafting and secondary closure in, wounds, preliminary report, 584
Warfare, amphibious, Injuries of extremities in, 573
Wounds, Definition of objectives, and importance of controls in evaluating local use of sulfonamides in, 1; gunshot, Experimental studies in peripheral nerve surgery, I. Effect of sulfonamide drugs upon experimental gunshot, involving peripheral nerves, II. Effect of sulfonamide drugs upon regeneration of peripheral nerves, 245, 250; abdominal, Surgical experiences with, in North African campaign, 286; Alpha rays in treatment of, 412; Débridement—when and how much? Comparative study of battle casualties, 478; abdominal, Reconstruction of, of colon, 544; war, Injuries of extremities in amphibious warfare, 573; war, Skin grafting and secondary closure in, preliminary report, 584
Wound healing, Definition of objectives, and importance of controls in evaluating local use of sulfonamides in wounds, 1; Experimental and clinical study on use of adult animal tissue extract in acceleration of, preliminary report, 103; Clinical and laboratory evaluation of action of sulfonamide ointments, 326; Alpha rays in treatment of wounds, 412; Therapy of burns, comparative experimental study including medicated pliable gelatin film, and note on effect of firm dressings on rate of healing, 469; Pilonidal sinus, sacrococcygeal cyst teratoma, 482; Skin grafting and secondary closure in war wounds, preliminary report, 584; postoperative, Choice of incision in gall-bladder surgery as factor in preventing wound disruption, evisceration, and herniation, 606
Wrist, Fractures of carpal scaphoid in Canadian Army, review and commentary, 225; Perilunar dislocation of carpal bones and dislocation of lunate bone, 256

ZYGOMATIC arch, Hook traction under, in cervical spine injuries, 311
